SUPPLIES FOR DISH GARDENS.

MINIATURE EVERGREEN TREES

Zack's Miniature Evergreens for Dish Gardens are real living plants. They are all selected transplants picked from our extensive stocks of Zack's Evergreens for Nursery Planting. These items are planted in cool greenhouse, and as long as limited supply lasts, will be available during the winter. If stocks cannot be used immediately on arrival, put in 2" or 2½" pots, for latter use in dishes.
